

Polar[®] Focus

Project Profile

Installer: Audio Logic Systems

2 clusters, each with:

10 d&b V8 Arrays

2 V-SUB Subwoofers

Total Cluster Weight: 1143 lbs. each

Products used: Polar Focus Spine Frame Adapter

Des Moines Performing Arts Center

John Simhauser from Audio Logic Systems in Minnesota got in touch with us for help rigging these d&b V-Series line arrays and center cluster at Des Moines Performing Arts Center.

These clusters weigh in at 1143 lbs each. Polar Focus provided Spine Frame Adapters for tilt control, as well as PY1-ZBR-1550 Zbeams with Rocker Arm, intended for lifting a cluster from two chain hoists for each of the side clusters.

We also supplied a custom center bar for the center cluster of two d&b Vp10 speakers, seen in the below photo.
