

Polar[®] Focus

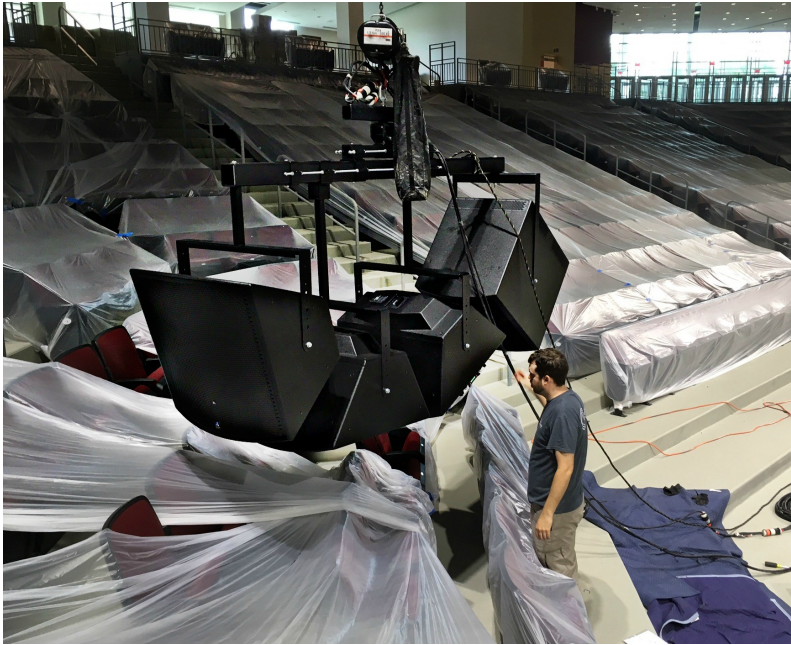

Project Profile

Installer: Audio & Light

8 clusters, consisting of:
3 Fulcrum Acoustic AH-96
2 Fulcrum Acoustic CS121 Subwoofer

Total Cluster Weight: 723 lbs. each
Products used: Polar Focus Custom Yoke System

Schar Center, Elon University

Todd Foster from Fulcrum Acoustic introduced us to Brian Cox from Audio & Light in Greensboro, NC. Brian needed assistance rigging these clusters at the Schar Center at Elon University.

Each of the eight main clusters has a total of three Fulcrum Acoustic AH-96 loudspeakers, and one CS121 subcardioid subwoofer. The total cluster weight is 723 lbs.

Polar Focus provided all of the rigging gear, and PE stamped drawings for the State of NC. We are especially proud that the 8 main clusters were packaged fully assembled and fit neatly onto two skids at 96"x30".

We also supplied rigging for five fill speakers, which were Fulcrum Acoustic DX1226.
